

# Erasmus Going Digital – now in Poland!

Warsaw, May 2019

# Today's topics

1. How is Erasmus going digital?
2. What is EWP?
3. How to connect?
4. Results and impact
5. Wrap up

## EUJ in short

- Ambitious and results oriented
- Focus on shaping EU policy
- Universities pooling ideas, expertise and contacts
- Working closely with governments, student organisations and EU institutions
- Offices in Luxembourg and Brussels

an alliance of Universities for the modernisation of the EHEA

Pillars

Quality mobility

Employability

Digital HE

Policy innovation

Active Citizenship

Actions

Student mobility  
Double Degrees  
Staff trainings  
Summer Schools

Knowledge triangle  
Dual education  
Entrepreneurial skills

ICT for management  
Blended learning

Social dimension  
Attractiveness EHEA

European Citizenship  
Human Rights

# In your opinion, the workload surrounding the management of Erasmus+ exchanges is

Answered: 978 Skipped: 72

launched in 2016

launched in 2017

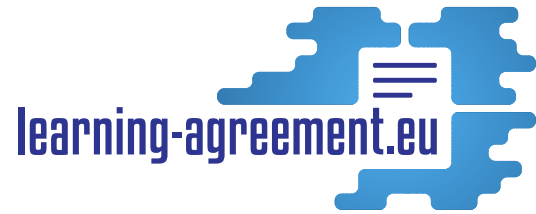

launched in 2018

to be launched in 2020

Student interface + Dashboard for IROs

Student interface

University to university data exchange

# EWP in a nutshell

- Enable **interoperability** and electronic exchange of data among universities
- Interconnect all +5000 ECHE holders
- Digitise all key steps of mobility workflows
- Ensure readiness of core services well before the start of the next programme

- network
- dashboard
- competence centre
- open source uni. alliance

## The EWP network

- Live since mid-December 2018
  - After 1.5 years of development
  - And 1.5 years of testing
- All universities who have their own SIS
  - And want to continue to use their existing tools
  - No fees, licenses or royalties
  - Enabling safe & electronic data exchange

## The Erasmus Dashboard

- Live since February 2018, around 1000 universities already have access
- Public infrastructure, free of charge for all ECHE holders
- Cloud based and already integrated with OLA and App

**How to connect?**

# 1<sup>st</sup> scenario

You have your own IT  
system

# Connect it directly to the EWP network !

- Each university takes care of upgrading own IT system
- As per the parameters and data model defined by EWP
- All the documentation your IT teams will need is in the **EWP Competence Centre:**  
<https://www.erasmuswithoutpaper.eu/cc>

We provide the tools & your IT team ensures implementation

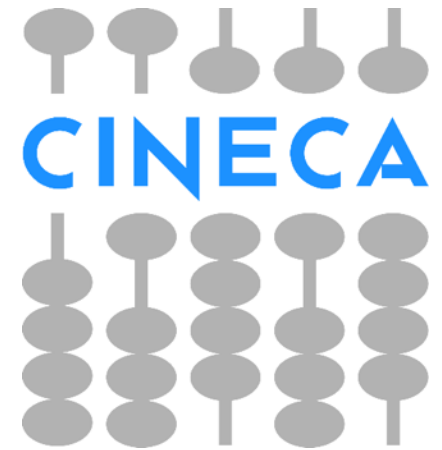

## **2<sup>nd</sup> scenario**

You use a third party  
service provider

**Make sure  
they  
connect  
you to EWP!**

- Several of the biggest third party providers are integrating EWP so **to automatically connect you.**
- Get in touch with them and check when the service will be available.

An aerial photograph of a tropical beach. The top half shows golden sand with some footprints and a few people. The bottom half shows clear turquoise water with white foam from waves washing onto the shore. A large white circle is overlaid on the left side of the image, containing text.

## 3<sup>rd</sup> scenario

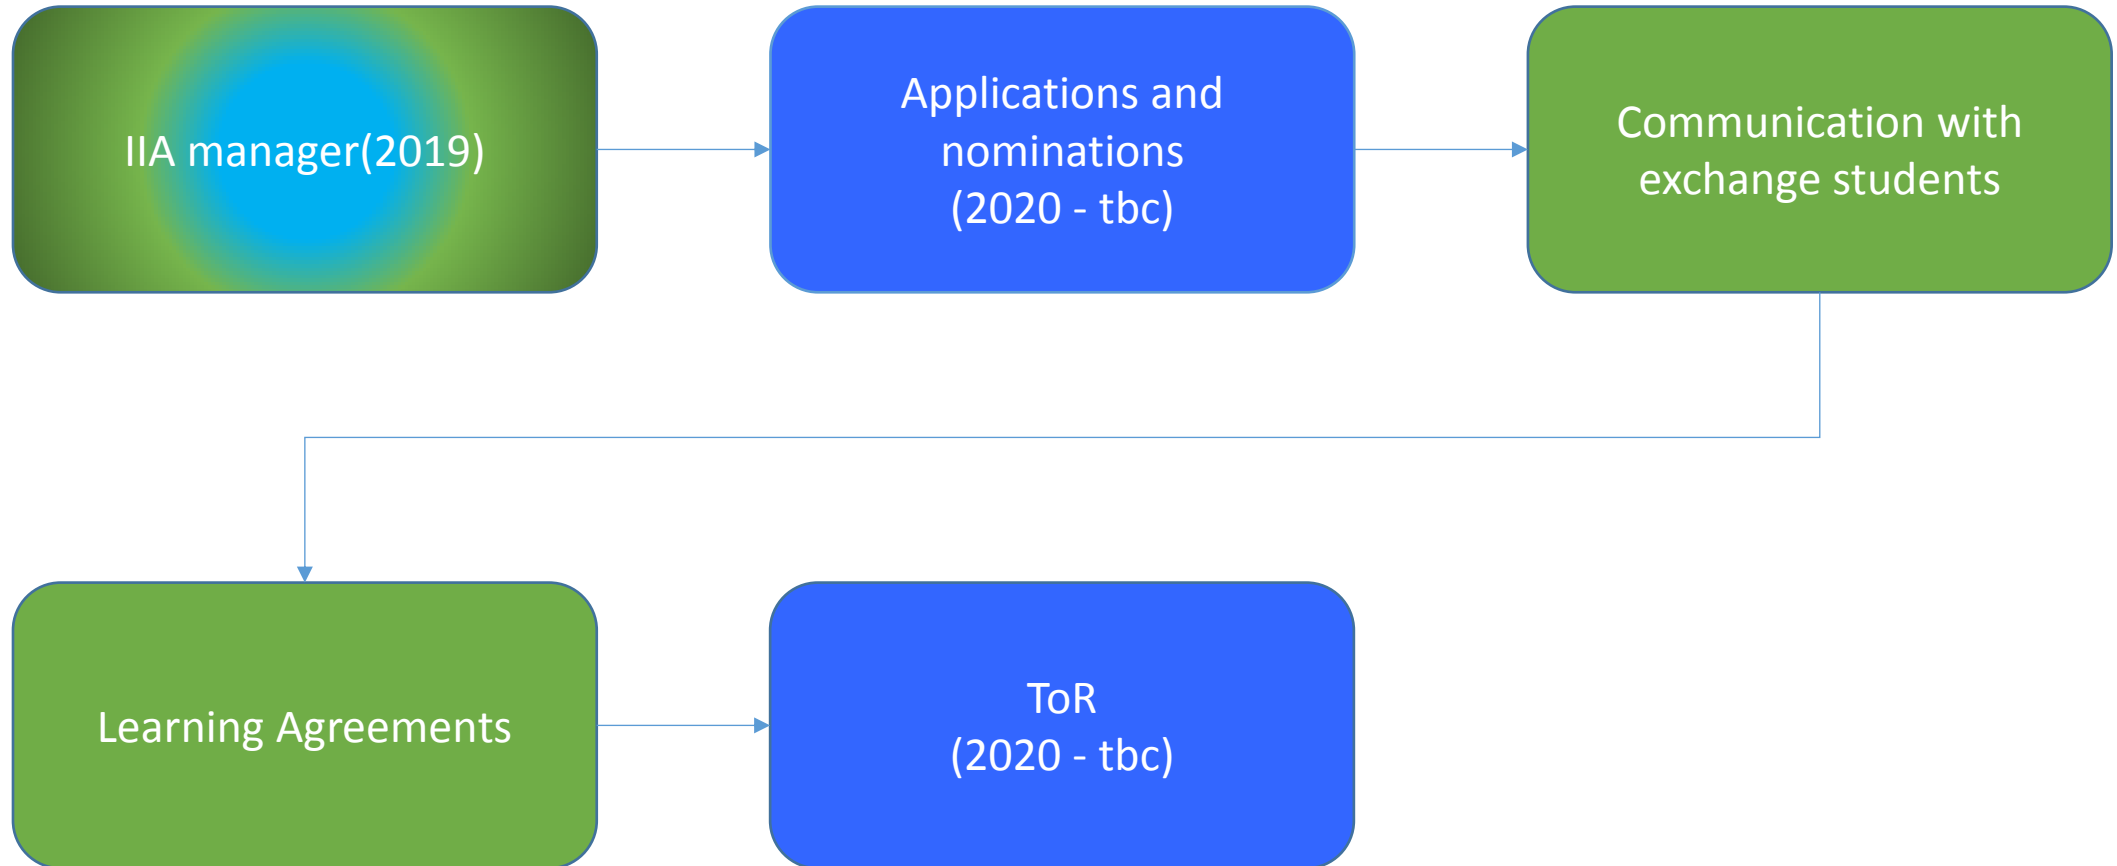

---

You don't have any IT system  
for student mobilities

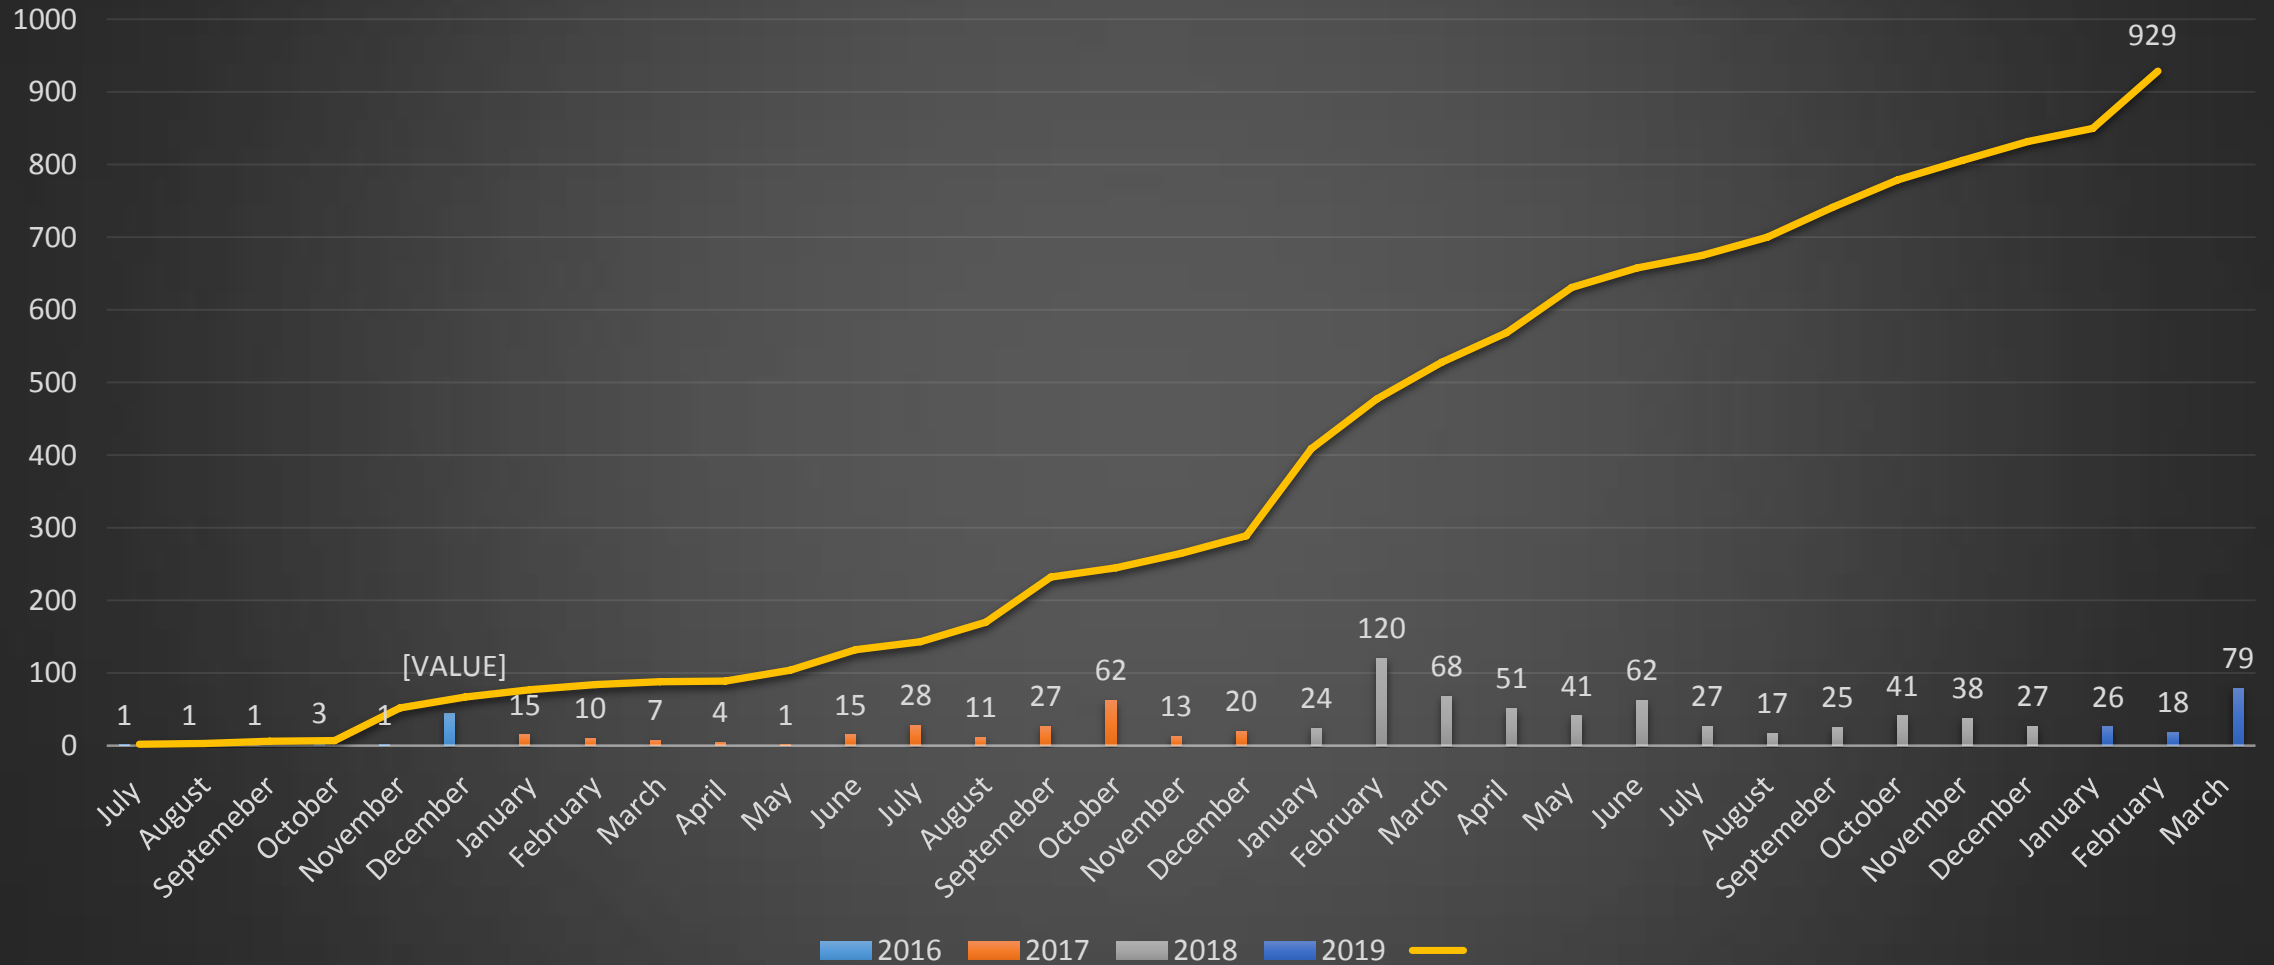

# Use the EWP Dashboard

- Request an account online
- Stress test it with your team and/or groups of students
- Enjoy the full integration with the OLA and Erasmus App as the system continues to grow

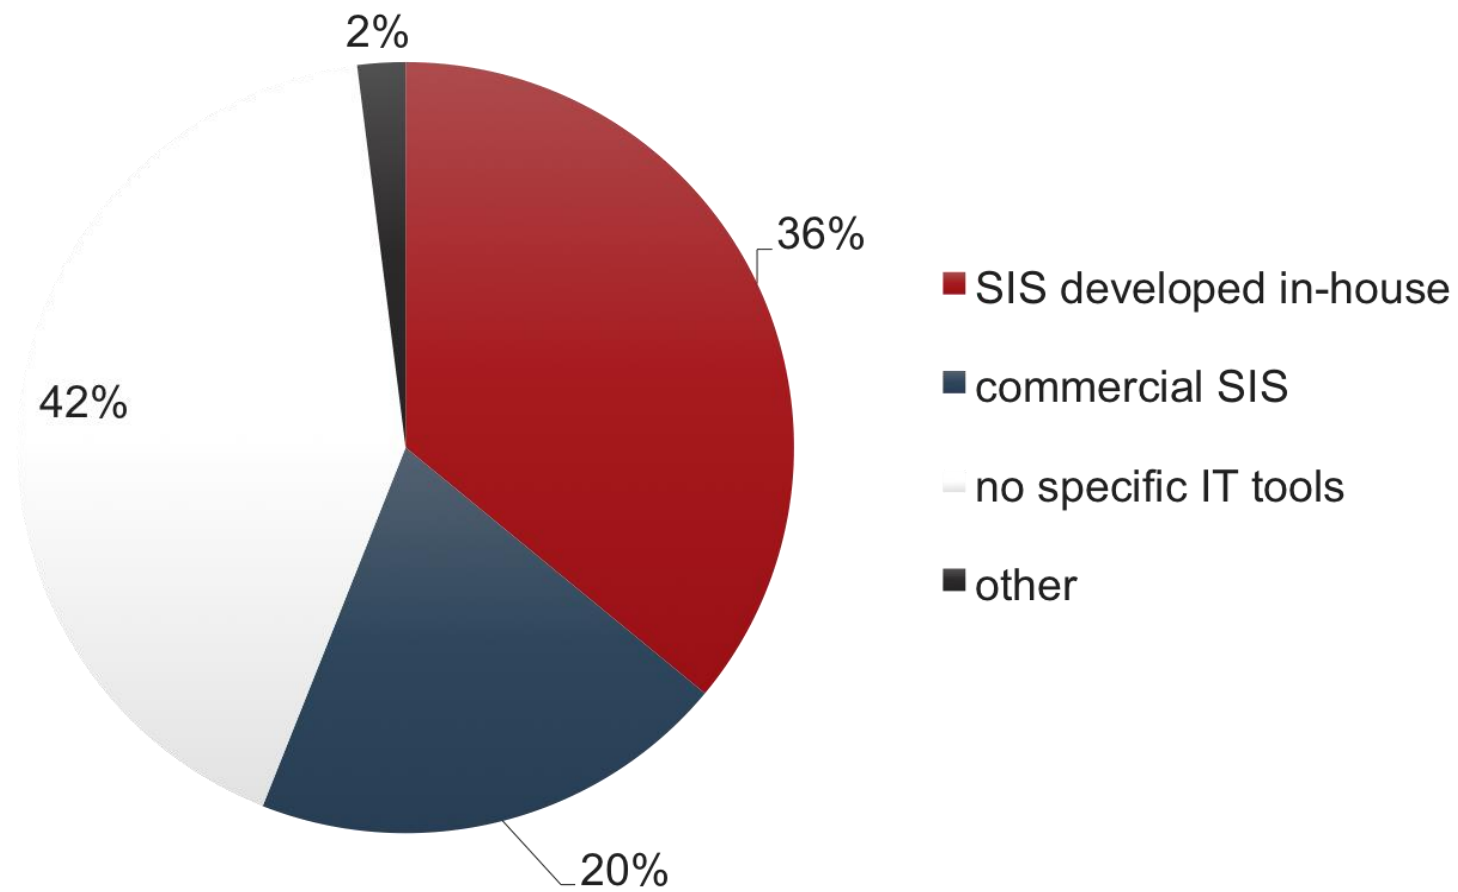

# Erasmus Dashboard functionality

# Registered users in Erasmus Dashboar 2016 - 2019

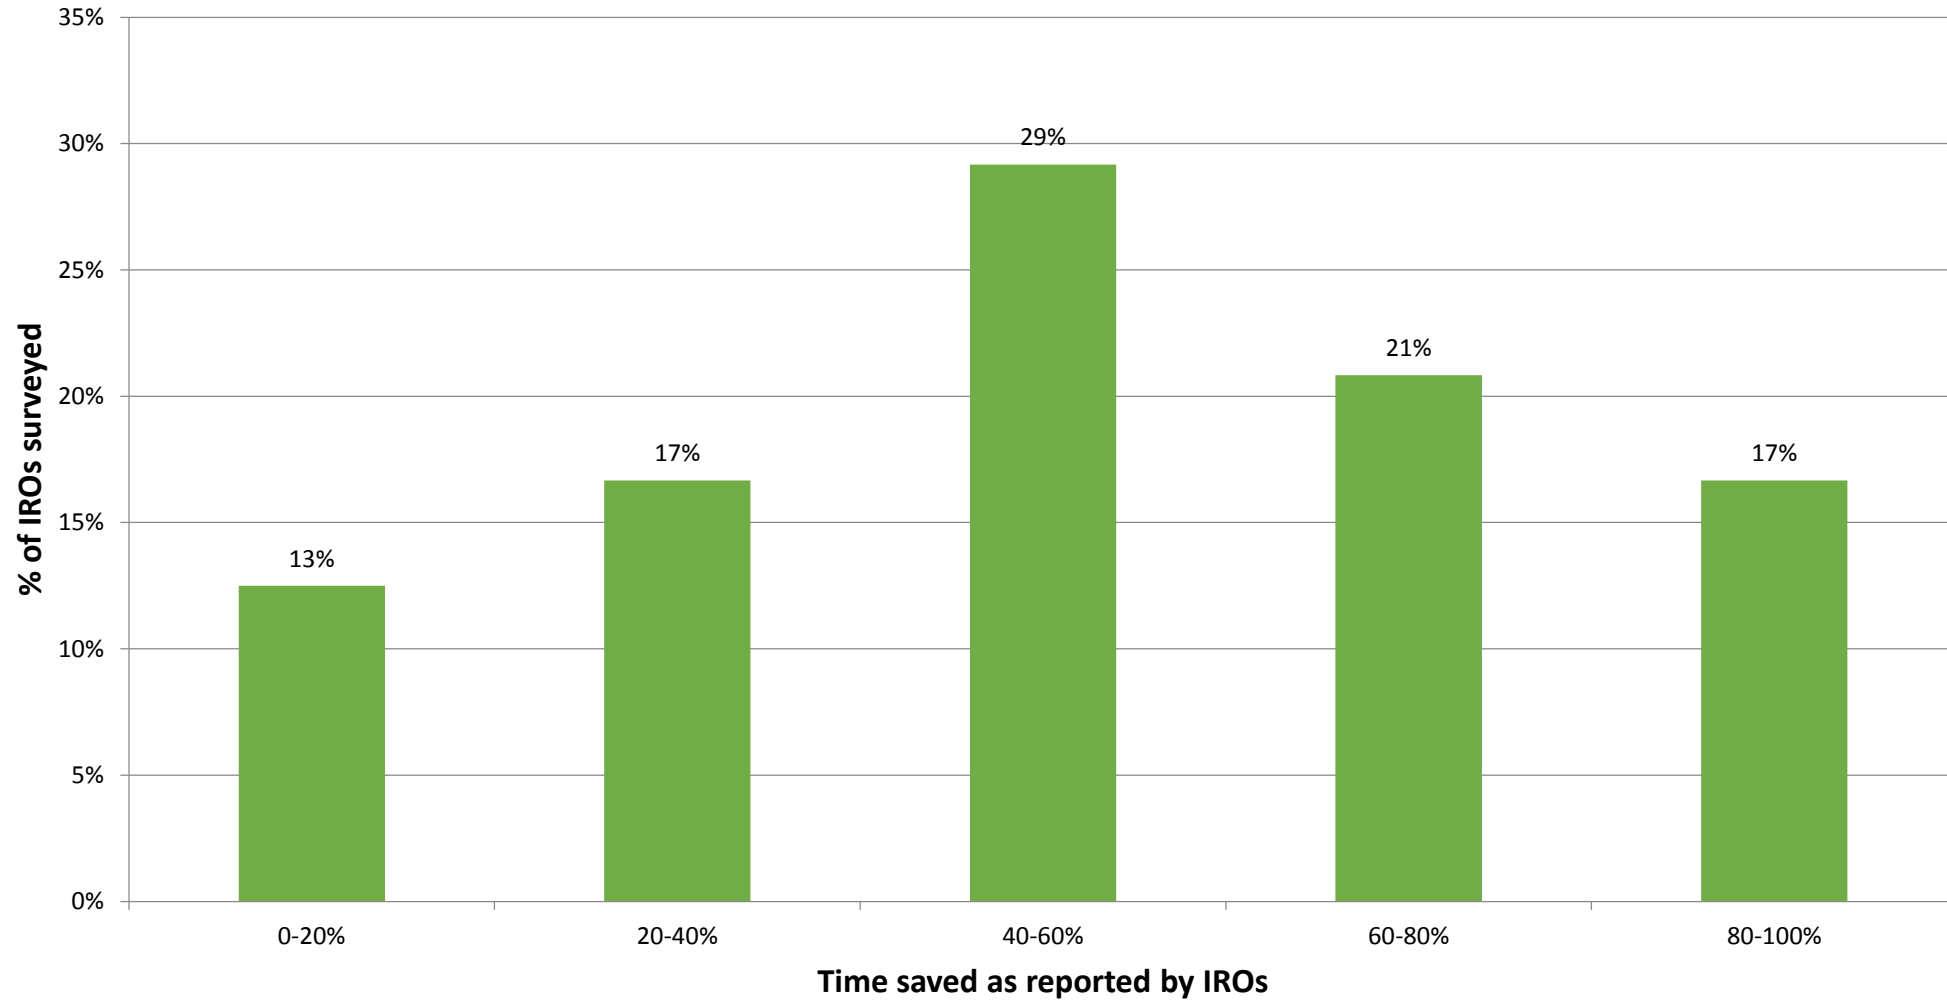

Mapping of IT infrastructure among ECHE holders

Does IT work?

- All tools tested thoroughly before launch
- Network uptime: 100%
- Network demo by IROs [here](#)
- OLA - 87% of students would recommend to colleagues
- Dashboard - 93% of IROs: would recommend to colleagues

# OLA efficiency gains

## Going digital leads to:

- ✓ Better compliance
- ✓ Positive impact IROs roles and tasks
- ✓ Improved student experience
- ✓ Lower administrative costs

Wrapping up

---

	<b>Own SIS</b>	<b>Third party SIS</b>	<b>Dashboard</b>
Fees or licenses costs?	No	Yes	No
Setup effort?	Yes	Depends on provider	No
Power users?	Yes	Yes	No
Full functionality?	Yes	Depends on provider	2020

---

# Practical tips

Start testing.

(because unicorns don't exist)

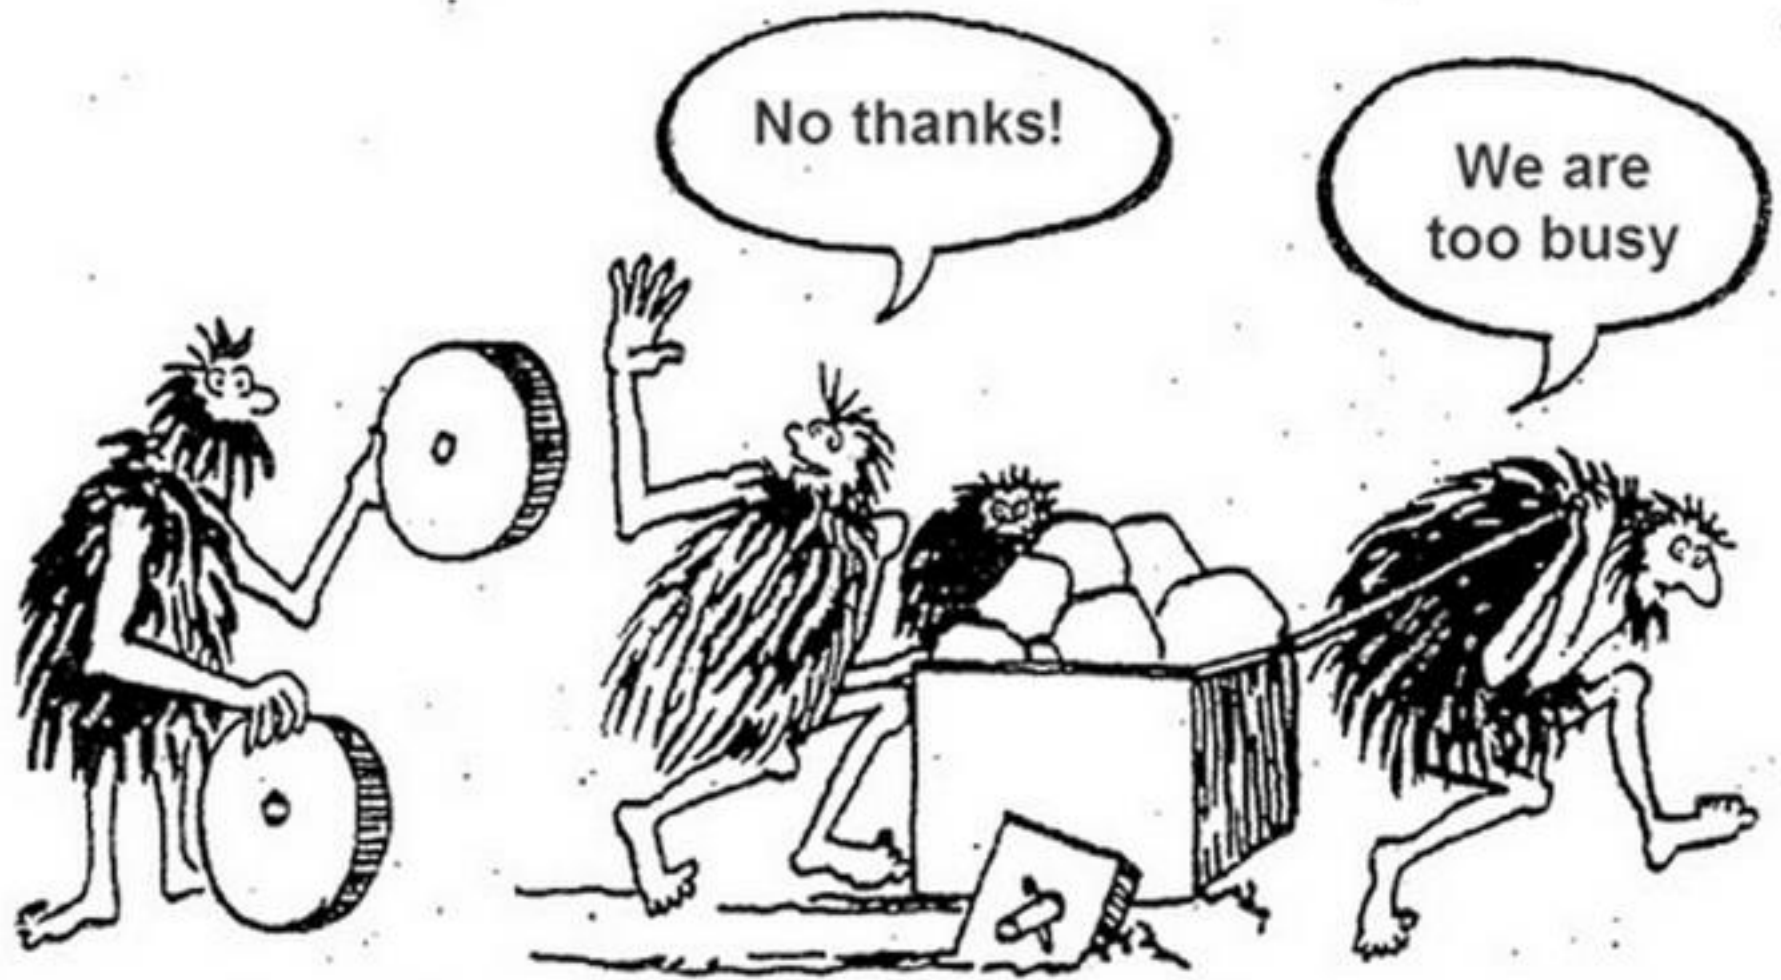

Involve partners and students.

And ensure leadership, IRO and IT work in concert.

No thanks!

We are too busy

Thank you for your attention!
