Requirements for Inter-Institutional Agreements 2021-20[29]
Static information applicable to all Inter-Institutional Agreements
*The institutions agree to cooperate for the exchange of students and/or staff in the context of the Erasmus programme. They commit to respect the quality requirements of the Erasmus Charter for Higher Education in all aspects related to the organisation and management of the mobility, in particular the automatic recognition of the credits awarded to students by the partner institution as agreed in the Learning Agreement and confirmed in the Transcript of Records, or according to the learning outcomes of the modules completed abroad, as described in the Course Catalogue, in line with the European Credit and Accumulation System. The institutions agree on exchanging their mobility related data in line with the technical standards of the European Student Card Initiative.
Grading systems of the institutions
It is recommended that receiving institutions provide a link to the statistical distribution of grades or makes the information available through EGRACONS according to the descriptions in the ECTS users' guide. The information will facilitate the interpretation of each grade awarded to students and will facilitate the credit transfer by the sending institution.
The IIAs of your institution are managed by the Dashboard in the EWP network so you will be able to send this agreement through the EWP Network.

Information on Digital Inter-Institutional Agreements

Key Action 1 - Mobility of learners and staff - Higher Education Student and Staff Mobility between Programme Countries Requirements for Inter-Institutional Agreements 2021-20[29]

Static information applicable to all Inter-Institutional Agreements

*The institutions agree to cooperate for the exchange of students and/or staff in the context of the Erasmus programme. They commit to respect the quality requirements of the Erasmus Charter for Higher Education in all aspects related to the organisation and management of the mobility, in particular the automatic recognition of the credits awarded to students by the partner institution as agreed in the Learning Agreement and confirmed in the Transcript of Records, or according to the learning outcomes of the modules completed abroad, as described in the Course Catalogue, in line with the European Credit and Accumulation System. The institutions agree on exchanging their mobility related data in line with the technical standards of the European Student Card Initiative.

Grading systems of the institutions

It is recommended that receiving institutions provide a link to the statistical distribution of grades or makes the information available through EGRACONS according to the descriptions in the ECTS users' guide. The information will facilitate the interpretation of each grade awarded to students and will facilitate the credit transfer by the sending institution.

General information entered into the higher education institutions' profile and updated by the higher education institution. The general institutional information about the institution is accessible to students.

ZALETY I POTENCJALNE ZAGROŻENIA

umów bilateralnych obsługiwanych w **IIA manager**

na podstawie doświadczenia **Politechniki Poznańskiej**

zalety umów bilateralnych obsługiwanych w IIA manager w Dashboard:

-oszczędność czasu

-łatwość obsługi

-brak możliwości przeoczenia jakichś informacji

-łatwy dostęp do treści umów

-przyjazny dla środowiska

-zaangażowanie mniejszej liczby osób w tworzenie umowy

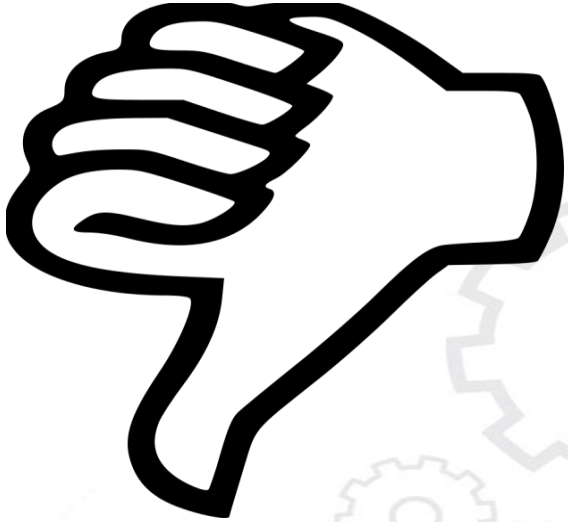
ewentualne zagrożenia:

-mail w skrzynce Prorektora…

-upoważnienie odpowiedniej osoby i konieczność jej przeszkolenia

-możliwość zawarcia w umowie błędnych informacji

-jeśli będzie to pracownik IRO, Prorektor nie będzie "zorientowany" w rozwijaniu współpracy pomiędzy uczelniami w ramach E+



Dziękuję za uwagę
